LinkUp Mobile partition wall

System consisting of a mobile partition wall. Several partition walls can optionally be linked together using magnetic connecting fittings. Several partitions can be pushed into each other to save space. Frame construction with a steel tube running all the way round on a crossbar, a filling element or an all-round fabric covering.

Filling element made of 1. a magnetic and writable, enamelled chipboard, 2. a cork-coated, pinable chipboard or 3. a cork- and textile-coated, pinable chipboard.

All-round fabric covering as 4. privacy screen and optionally with an acoustically effective filling.

Support elements consisting of 2 short runners, each with 2 castors.

The following material groups are available: Frame made of metal: M(arctic, black RAL 9011); Writing surface made of steel: E(white); Pinboard made of cork: K(natural cork); Pinboard made of fabric: S72; Fabric cover: S46,51,52,74,78,79,80.
