

PRODUCT INFORMATION Shift-p-LTaschen_TY_US - 02.02.2023 - www.vsamerica.com

Shift+ Transfer Mobile storage cabinets.

Structure of glued linear bodies on steel cross-member with 4 technical castors, 2 of which are lockable. Optionally with 4 adjustable feet.

Body of laminated LIGNOpal chipboard with plastic edge. With glued center walls to portion the bodies, permanently glued structural shelves and a perforated-metal back panel. Models available with plastic boxes/trays on guide rails (see table). Optionally with protective rubber mats on the shelves available (45231, 45330, 45332, 45326).

Function: Optional with shelf inserts or wardrobe hooks (4-prong or 8-prong) and magnets (optional) on the outer sides for linking other cabinet elements.

Pull-handles (optional) made from steel on the top of the body.

The following material groups are available: Body made of chipboard: L4; Perforated-plate: M1; Gratnells plastic box: C3.
