

**MATERIAL (COLORS AND DECORS)** Mat-C031\_ME\_EN - 12.08.2023 - [www.vs-furniture.com](http://www.vs-furniture.com)

**Plastic colour:  
C031 white ( ≈ NCS S 1002-Y ).**

Plastic parts are used for small parts and also for seat shells. Seat shells are made from polypropylene. Polypropylene is a particularly impact- and scratch-resistant material. The use of the individual colours is defined in the product information for the furniture.

**Important note.** Material and colour charts produced by printing can deviate slightly from the original and the colours are not necessarily exactly true. The same applies to ink-jet or laser prints from PDF files.
